

Erasmus+ Programme

Capacity-building in the field of Vocational Education and Training (CB VET)

What is Erasmus+?

Erasmus+ is the EU-funded programme to support individual exchanges and institutional cooperation in the fields of education, training, youth and sport. The programme has a strong international dimension, which opens up many of these opportunities to individuals and stakeholders from countries worldwide. Almost all projects are based on a partnership between the 27 EU Member States and six countries associated to the Programme on the one hand, **and more than 100 third countries not associated to the Programme throughout the world on the other.**

What are CB VET projects?

Capacity building in VET projects are international cooperation projects based on multilateral partnerships between organisations active in the field of VET in EU Member States and third countries associated to the Programme, and third countries not associated to the Programme. They aim **to support the relevance, accessibility, and responsiveness of VET institutions and systems in third countries not associated to the Programme** as a driver of sustainable socio-economic development.

Third countries not associated to the Programme come from 6 regions (for more details see the Programme guide, section “Eligible countries”):

- **Western Balkans (region 1),**
- **Neighbourhood East (region 2),**
- **South-Mediterranean countries (region 3)**
- **Sub-Saharan Africa (region 9),**
- **Latin America (region 10) and**
- **Caribbean (region 11).**

Each project must select at least one **Thematic area**:

- Work-based learning (for young people and/or adults);
- Quality assurance mechanisms;
- VET teachers/trainers professional development;
- Key competences, including entrepreneurship and citizenship competence;
- Public Private Dialogue and Partnerships in VET;
- Innovation in VET;
- Green and digital skills for the twin transition;
- Skills matching with current and future job opportunities, including in promising value chains under development;
- Development of curricula and training modules.

All projects are encouraged to include **Horizontal aspects of the Erasmus+ programme**: inclusion and diversity, environmental sustainability, digital dimension and common values, civic engagement and participation.

What do CB VET projects do?

CB VET projects can carry out a range of activities (examples below) focused on the third countries not associated to the Programme:

- creating and developing networks and exchanges of good practice between VET providers in third countries not associated to the Programme and in EU Member State or third country associated to the Programme;
- creating tools, programmes and other materials to build the capacity of institutions from third countries not associated to the Programme (practical training schemes training programmes and tools for assessing and validating learning outcomes in VET, individual action plans for participating institutions; professional guidance and counselling and coaching methods...);
- creating mechanisms to involve the private sector both in the design and delivery of curricula and to provide VET learners with high quality work-based experience;
- developing and transferring pedagogical approaches, teaching and training materials and methods, including work based learning, virtual mobility, open educational resources and better exploitation of the ICT potential;
- developing and implementing international (virtual) exchange activities for staff primarily (including teachers and non-teaching staff such as school leaders, managers, counsellors, advisors, etc.).

What is a duration of projects and what is an EU grant they can ask for?

Project must last **2- or 3-years** and a requested grant must be between **EUR 100 000 and EUR 400 000** representing maximum **80% of total costs of a project**.

New in 2025

From 2025 onwards, **new priorities** were defined for some regions; slight change/shift of **award criteria**; **Global gateway** Investment package/Investment agenda plays even more crucial role than until now; applicants will **submit a project according to a region**.

Who can apply and take part in CB VET projects? How?

Taking part as an organisation:

In order to be eligible, the applicants (**beneficiaries** and **affiliated entities**, if applicable) must:

- be **legal entities** (public or private bodies);
- be **active in the VET field or in the labour market**;

Participating organisations can be, for example (non-exhaustive list):

- VET providers
 - Companies, industry, other employers or sector representative organisations
 - National/regional qualification authorities
 - Employment services
 - Research institutes
 - Innovation agencies
 - Regional development authorities
 - International organisations
- be established in one of the eligible countries, i.e. **EU Member State, third country associated to the Programme, third country not associated to the Programme from an eligible region**.

The eligible regions covered by this action are **Regions 1, 2¹, 3, 9, 10 and 11** (please see Part A of the Programme Guide).

Consortium

Projects must be submitted by a consortium of at least **4 applicants** (beneficiaries, not affiliated entities) **from minimum 3 eligible countries**:

- at least 2 EU Member States or third countries associated to the Programme;
 - each of these participating countries must involve at least 1 organisation.
- at least 1 eligible third country not associated to the Programme:
 - at least 2 organisations from the participating eligible third country/countries not associated to the Programme from the same region
 - Organisations from different eligible regions cannot participate in the same projects. Cross-regional projects are not eligible.

The consortium must include at least one VET provider at non-tertiary education level.

The number of organisations from EU Member States and third countries associated to the Programme **may not be higher** than the number of organisations from eligible third countries not associated to the Programme.

Affiliated entities and associated partners do not count for the consortium composition.

Organisations from **Belarus** (Region 2) and the **Russian Federation** (Region 4) **are not eligible to participate in this action**.

Who can apply? Who can be a coordinator?

- The **coordinator** must be an organisation **active in the VET field**. It applies on behalf of all participating organisations involved in the project. It cannot be an affiliated entity. **Organisations from third countries not associated to the Programme cannot be coordinators**.

How to apply?

- **Funding opportunities for 2021-2027 and information on how to apply are announced on the European Commission's Funding & Tender Opportunities portal: <https://ec.europa.eu/info/funding-tenders/opportunities/portal/screen/home>**
